STRUCK BY LIGHTNING

Large Stock Barn of Rev. J. G. Livingston Burns to Ground.

Lightning struck the large stock barn on the farm of Rev. J. G. Livingston, in the Sugar Grove section, last Wednesday afternoon, set it on fire and completely destroyed it. All of the well known preacher's farming implements, and machinery, a wagon, buggy, buckboard and all of his harness were destroyed. About the only thing of value which was rescued from the blazing structure was a horse, which got out and ran off. The damage will amount to about \$1,000. This hits Mr. Livingston very hard for he carried no insurance whatever on the barn or contents. Neighbors came to his assistance when they learned of the fire but the barn burned very quickly and there was no adequate means to successfully combat the flames.

It pays to keep your property of all kinds insured in the old reliable companies represented by Jesse D. Wear, the Insurance Man, of Stanford.

C. N. Smith Grand Commander.

The Knights Templar Conclave adjourned its annual session at Danville Thursday night with a grand ball. A host of visitors from all parts of the state was on hand during the big meeting and were given royal entertainment by the good people of Little Britain. Charles N. Smith, of Ryan Commandery, of Danville, was honored by being elected Grand Commander. Next year's session will be held at Frankfort. It was estimated that 10,000 people witnessed the parade Wednesday afternoon. It was a magnificent spectacle with the host of marching knights in full panoply, accompanied by something like a dozen bands.

Mrs. Settle, of the Big Hill neighborhood, died in the Berea hospital from injuries received in a runaway of several weeks ago.

An order for steel freight cars involving expenditures of \$16,000,000 was placed by the Pennsylvania railroad this week.

Danger to Children.

Serious illnesses often result from lingering coughs and colds. The hacking and coughing and disturbed sleep rack a child's body and the poisons weaken the system, so that disease cannot be thrown off. Foley's Honey and Tar Compound has eased coughs, colds and croup for three generations; safe to use and quick to act. There is no better medicine for croup, coughs and colds. Sold everywhere.

Don't Be a "Grouch."

Many persons acquire a reputation for crankiness and grouches when their dispositions are not to blame. Peevishness, irritation, morbidness, biliousness, melancholia most often are the result of impaired indigestion and torpid liver. Foley's Cathartic Tablets make you light, cheerful and energetic. Sold everywhere.

LITTLE DOING IN COURT

Business Drags In Circuit Tribunal This Week—A Few Cases Tried.

There has been very little doing in Circuit court this week. For some reason or other, few cases were ready for trial when court convened and very little has been done since court started in Monday. Business is expected to pick up today when several cases are set for trial, among them a number of whisky cases. The grand jury has been sitting all week, during the recess upstairs and has been examining many witnesses.

Early in the week Caspar Abt, a well known German near Ottenheim, compromised a number of cases against him, upon indictments charging him with having brandy in his possession for purposes of sale. He paid \$150 into court in settlement of the cases.

George Howard was fined \$50 and costs for cutting Henry Poynter in a scarp near Pine Grove one night a few weeks ago.

Jake Wilson was found not guilty on a charge of selling booze. According to the officials practically all of the cases on the docket are short and of minor importance and could be tried within a very short time if they could be gotten ready.

NEW PICTURE MACHINE

Installed By Opera House to Provide Better Pictures for Patrons

In keeping with his custom of giving his patrons the best that is going, Manager C. Hays Foster, of the Stanford Opera House, has just purchased another moving picture machine, which is said to be the very last word in such matters for purposes of sale. The "movies" on the screen in better shape than anything of the kind in a town this size in the state. Mr. Foster has bought a Powers 6-A machine which is driven by an electric motor, which insures perfect continuity and smoothness of picture which is impossible to obtain with the hand-run machines. Mr. Foster will still operate his old machine, so that there will be no tedious interim between pictures, or reels, one merging into the other without break or smoothness of picture which is impossible to obtain with the hand-run machines. Thos. W. Varnon Chosen Police Judge

Thomas W. Varnon, son of Judge Wallace E. Varnon, for many years a resident of this city, has been chosen substitute police judge of Asheville, N. C., by the commissioners of that city. The election was unanimous. An Asheville paper has this to say about the young man who has many friends and well wishers in this city: "Mr. Varnon is one of the younger attorneys of Asheville, having been engaged in the practice of law here but a few years. He is a graduate of Washington and Lee university and pursued his law course at the same institution. He has met with much success in the practice of his profession at this city and has frequently been mentioned as the probable choice of the commissioners in the selection of the substitute judge of the city police court."

10,000 Gallons of Road Oil Here.

Ten thousand-gallon tank of road oil has arrived here from the oil fields at Salt Lick, consigned to the city of Stanford. The oil will be applied to the streets just as soon as they dry off sufficiently or it quits raining. Mayor Florence made a test of the oil on Depot street for a short distance, Thursday and the oil spread nicely. The rain Thursday night will prevent any further application today however. Just as soon as the thoroughfares dry sufficiently, work of putting the oil on the streets will begin.

J. J. Thompson's Will Probated.

The will of J. J. Thompson, who died in his home in the Asheville section a month or so ago, was probated at Lancaster Monday. It leaves his widow the home place with 100 acres to be hers absolutely as long as she remains a widow. To his youngest daughter, Lucile he gives \$500 in cash and she is to share equally with the nine children the remainder of his estate. James H. and J. Frank Thompson are made executors under the will.

Beautiful Lesson In History.

The Interior Journal has gotten out a booklet of views along the Wilderness Road, hereafter to be known as the Boone Way, which is a little gem in typography, as well as artistically. Logan's Fort, Gov. Shelby's home; the home of Gen. William Whitley, the Indian fighter, the first brick house built in Kentucky, and other pictures of great interest are embodied, making it a really beautiful lesson in history.—The Lexingtonian.

Mt. Sterling Dry.

For the first time in a quarter of a century, Mt. Sterling is dry, the saloons being closed for the last time on Tuesday night. The old patrons will have to attend court at Lexington now, as an excuse to get booze.

Don't Be a "Grouch."

Medical authorities agree that colds are infectious. In some cities children with colds are barred from schools. Spring's changing weather brings many colds. The quickest and safe way to stop colds, coughs and croup is to give Foley's Honey and Tar Compound. For sale everywhere.

S. H. S. ALUMNI ORGANIZE

Arrangements Made for Annual Banquet and Officers Elected.

At a meeting of the Alumni of the Stanford High School, who are here, at the College building, on Wednesday morning at 10 o'clock, it was decided that an Alumni banquet would be given, about the first week in July, when all of the Alumni, who are away have time to get home. This will be the first banquet of this kind given in this city and it promises to be a great affair in every way.

The meeting was called to order by Miss Emma Hays and after a few remarks as to the purpose of the meeting and a few suggestions, the officers were chosen who will serve until the evening of the banquet, when permanent officers will be elected. They are as follows: President, James Cooper; Vice-President, Joseph Hill; Secretary and Treasurer, Thomas P. Bright. The committees which were appointed are: Committee on By-Laws, Misses Sallie Burdette, Lissa Holtzclaw and Emma Hays; Committee on Arrangements, Misses Sallie M. Craig, Mary Moore Roney and Harvey Wilkinson; Committee on Menu, Misses Emma Hays, Verna Rout and Willie Moore.

Prof. J. W. Ireland, who was principal of the High School, when most of the Alumni graduated, has been invited to be toastmaster on this occasion and it is hoped by all, that he will make his arrangements to be here for his presence would add much to the affair.

All the Alumni will be written to in regard to the banquet by the secretary in a few days as to the time, that best suits them. It is hoped that all will endeavor to come home at this time and make it an affair to be long remembered. It is desired to make the Alumni Banquet an annual affair.

Each class is to be represented by one member, who is to give a brief sketch of the class on the evening of the banquet.

LATEST WAR NEWS

The British battleship Majestic supporting the allied army on the Gallipoli peninsula, was torpedoed and sunk by a German submarine. Nearly all the crew and officers were saved. The Majestic is the sixth capital ship lost by the Allies in the Dardanelles.

King Victor Emmanuel has taken command of the military and naval forces, and is en route incognito to the front. The Italians who have crossed the Austrian frontier to the east, along a front of sixty miles to the Isonzo river, have not yet met with any serious opposition. In fact no important battle is expected until the invaders reach the river, as it is here that the Austrians are established.

The British battleship Triumph has been sunk in the Dardanelles, according to official announcement made last night.

Although called upon to face another enemy in Italy, whose troops have crossed the eastern border, the Austrians and Germans have not relaxed their efforts on the other fronts. In Middle Galacia they have resumed the offensive against the Russians along the River San, and claim to have met with further success, while in Flanders and Artois the Germans continue, according to the French report, to make furious attacks to regain ground lost in recent weeks and to hold that which they took from the British in the region of Ypres.

Except for the German admission that the British have captured part of their trenches to the north east of Givenchy, the reports of the belligerent headquarters continue to contradict each other, one side claiming gains, while the other says that all attacks were repulsed with heavy losses. So far as the west is concerned, however, the fighting, as has been the case for months, consists largely of trench warfare.

Washington officials are awaiting a full examination of the steamer Nebraskan to be made when it reaches port before expressing any opinion in the case. At present it is not known whether the American-owned steamer was torpedoed or hit by a mine. The vessel under convoy and its own power, is proceeding toward Liverpool.

Graduating Exercises of Stanford High School Prove Entertaining and Attractive This Week

Eighteen young men and women received their sheepskin diplomas from the Stanford High School on Wednesday night and are now full fledged graduates, and out upon the world either for pursuit or further education in higher channels or to settle in the usual vocations of life.

Almost the entire week has been occupied with the closing exercises of the local educational institution and those who have attended the exercises pronounce the Commencement programs this year, perhaps the most attractive and interesting that has ever been held in Stanford or at least in many years.

The public and the administration were both shocked by the news of the torpedoing of the American steamship, Nebraska, in the war zone. The incident not only suggested that Germany has not ceased submarine warfare but caused especial comment in that it involved attack on a craft flying the American flag, on its way to a home port, so that there could have been no suspicion that it was carrying goods to allies. One of the dispatches says that the ship had hauled down her flag a few moments before she was struck, but this may or may not be true. The ship's name was painted on her sides in box car letters, which could be read for miles, and there are many other reasons why the crippling of it can not be rightfully claimed as accidental or an error. Germany seems to be doing her damndest to involve this country in war, and if she goes much further with her deviltry, success will crown her efforts. Cool, conservative, patient and forbearing, President Wilson cannot stand any and all insults and he may be expected to act if Germany continues her dastardly course toward the United States.

The second conviction of Police Lieutenant Charles Becker, for instigating the murder of Herman Rosenthal, New York gambler, was upheld by the Court of Appeals, and he must die now unless he can obtain executive clemency from Gov. Whitman, who as district attorney of New York, prosecuted him, or can obtain a reversal by the United States Supreme Court. If Becker is guilty of the charge, as he has been proven to be he should die, and the quicker he is put to death the better off the country will be.

The Elkton Times says that Editor Harry Summers of the Elizabethtown News could have been elected governor by 30,000. Much as we love him we are going to give our honest opinion about the matter, whether it is sought or not, and that is that neither Summers nor any other democrat who sets himself up as opposed to the democratic principle of giving the people a vote on as important an issue as state-wide prohibition, can be elected governor of Kentucky.

The Knights Templar edition of the Danville Messenger is a "peach." There are twenty pages of it, printed on highly calendared book paper and each page brimful of interesting matter, profusely illustrated. It is a credit not only to the Messenger office but to the little city in which it was gotten out. From a historic standpoint the edition is almost invaluable.

Charles H. Milliken was defeated for president of the Travelers Protective Association at the State meeting held in Paducah, Paul Winn, of Hopkinsville, being the successful candidate. Mr. Milliken is a candidate for the democratic nomination for Secretary of State and his opponents are wondering if this isn't an off year with him and if defeats like railroad wrecks, won't come in trios.

HIGH OFFICIALS

TAKING TANLAC

Judges, Mayors and Prominent Business Men Try Premier Preparation.

Lexington, Ky., May 27.—"I have sold Tanlac since the beginning of its introduction in Lexington, to the Mayors, Circuit Judges and to many of the most prominent business men and professional men in Kentucky," said Wm. E. Stagg, the Lexington druggist.

The demand for the preparation has been phenomenal. In all of my twenty years' experience in the drug business I have never seen anything to equal it.

"In addition to the Lexington demand, Tanlac has been shipped from my store to Kansas City, Mo.; Colorado Springs, Colo.; Denver, Colo.; Memphis, Tenn.; Meridian, Miss.; Bonanza, S. D.; Pittsburg, Pa.; Jacksonville, Fla.; Louisville, Ky.; Tiffin, Ohio; Cincinnati, Ohio; Columbia, Tenn.; Palm Beach, Fla.; Phoenix, Ariz.; Los Angeles, Cal., and many other points too numerous to mention. You may rest assured that every city in Kentucky should have a supply of Tanlac."

"I can only account for the great demand for this preparation by the fact that it is a good medicine. That is proved by the numerous statements from those who have tested the medicine and are now convinced of its excellent merits. The public has evidently not been slow to appreciate the Tanlac merit."

"Practically \$20,000.00 worth of Tanlac has been sold and distributed through my store within the past few weeks. Such a demand is most certainly unprecedented."

Ponce de Leon Failed; His Prize Is Found

Ponce de Leon, the daring explorer, searched among the swamps of Florida for the Fountain of Youth, which the Indians said would restore power and make people young. He did not find it. Thousands of chronic intestinal, bowel and stomach sufferers have written to Geo. H. Mayr, 154 Whiting St., Chicago, in quest of health. They have found it. His remedy, composed of healing vegetable oils from France, has indeed given them back the health of youth.

Why suffer from indigestion, gases on the stomach, fainting spells, torpid liver, constipation and all the evils of a disordered stomach when there is permanent relief here? Mayr's Wonderful Remedy is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction.

Deafness Cannot Be Cured.

The best application as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, since cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

It Pays to Advertise.

It pays to advertise. But that fact is so well established that it is useless to talk about it. Mr. J. S. Hundley, now of Boyle county, while here court day lost a black ribbon watch fob which he thought a great deal of because it was a gift from a friend. While here Monday last he advertised for it. While the paper containing the "ad" was being printed Tuesday afternoon, Dr. Lee Hill, of the Lincoln County National Bank, walked in and handed the fob to one of the I. J. firm. It had been found by some one who left it at the bank, hoping that its owner would get it, but he very probably never would have had the little lost advertisement inserted.

Arthur Wilcher brought in a large rattlesnake killed as he came to town. The rattles were charred by the late forest fire to almost powder. Certainly a strain of salamander must have averted cremation of that serpent.

A large viper was killed just out of the town limits.

Mrs. Edd Reid alarmed by prolonged stay of her little fellows, who had gone to the spring went in quest of them to find them engaged in capture of a large rattlesnake. The seven-year-old boy had the monster pinned down with a stick and told his mother he intended to take it to the house to her. He said he heard it "buzzing" as he went to the spring and stopped and found it as he returned. That the boy escaped seems providential, for he must have passed dangerously near the reptile to have excited its rattle of warning, and his later experiences were truly miraculous. The woman crushed the serpent's head but her heel was not the weapon. Thought of the incident produces shudders. Truly there seems a special Providence protecting children and the drunken.

The lane of the river endures compellingly and picnicers and sportsmen almost daily are impelled by hope of better luck next time—Hopes continuously deferred do not sicken our fishermen to disgust.

A disastrous collision of auto and buggy was of hair-raising and fleeing creepiness at a bridge near town last week.

A curve, approximating a right angle, fringed with foliage of bushes and trees, makes a specially dangerous point needing a warning sign post of "go slow, watch, wait, listen". A wheel of a buggy ran off edge of the lane, precipitating driver across dash without other damage than a shake-up and fracture of buggy whip, whilst auto just escaped a turtle-turn by stopping on edge of embankment. A gentle horse and the benignant Providence just now enjoining us attest that we are yet in the halcyon of His hand. The honk and honk of auto and auto truck are frequent and familiar as the one-time clatter of the scores of daily lumber wagons. It is notable that a greater number of autos than of horse spring-vehicles passes daily.

Two of a small bunch of fat hogs started from here to market last Saturday. They were led on the roadside and third near Moreland added to the loss.

Tropical hats and attic wraps are rather incongruous combination on Folded Hands brethren of sunny sides but not more so than grangers in horse blankets and overcoats. The rig of blackberry winter now prevailing, is severe.

Tobacco season Wednesday morning. Growers are rushing the setting of such plants as are fit.

Recently the clergy of a flourishing city combined in protests against Sunday recreations and especially amusements which diminish church attendance by greater attraction than that of the churches have been able to provide. Later, a base ball combine is reported as trying to put through a municipal embargo on Sunday afternoon "movies" which divert too many fans from their Sunday games. It occurs to a moshack that if the clergy would adopt a Sunday afternoon series of "movies" illustrative of many of the thousands of natural, artistic and scientific facts of which so little is known and which will be interesting and valuable instruction their problem will have been solved—measurably at least. Pardon the presumption—but if style of homiletics were moved a peg or two from the ruts of tradition and speculation in propaganda and put on a smooth track of the demonstrable and manifest would not interest be increased at cost of very little extra labor in the versatile parson's study?

And, if the ball fraternities would weed out their buchanan and exploit only up-to-date, on the job material their value would be mitigated if not nullified.

Governments are fast trending to the paternalistic and autocratic. Requisitioning and commandeering by means of Gatt have progressed to extreme of prescription and proscription in disposal of family larder, if facts have been written. Certain deserts have been proscribed. Isn't such sumptuary assumption the limit? And isn't our own loved land drifting into inquisitorial meddlesomeness in creation of commissions and inspection with high salaried and impertinent executives who would add domestic to their other corporate-business enterprise? CRAB ORCHARD.

On last Friday evening, May 20, the Odd Fellows gave a most enjoyable banquet and fed one of the largest crowds seen here in many days. Several fine speeches were made and excellent toasts given and they proved their ability to entertain. There is no order grander than the Odd Fellows, and no fraternal order doing better work for the upbuilding and uplifting of the human race.

On Thursday, May 19, there was a grand banquet given in Masonic Hall by the Masons, in honor of wives, husbands and sweethearts of that order. An order of "Eastern Star" was organized with about twenty members. Grand speeches, and a general good time was had, and everything good to eat was served and it does not look like hard times has struck C. O. yet.

On Monday night May 24, the Junior exercises of the Graded School took place. There never has been a larger crowd in attendance than was here to witness the little tots and they each did fine work, showing how much care the teachers had bestowed upon them. We wish we had space to mention each one, but we will say not one, but all did fine—and looked sweet.

Immediately after the exercises

A Real Kidney Medicine—Always Reliable

I feel that I ought to tell what I know about Swamp-Root and what it has done for me. I was down and out and had to quit work in 1906. I said I had kidney trouble in the worst form, and my liver was out of order; and I had Rheumatism so badly I could not get around. One day I picked up an almanac and saw your advertisement, and it fit my case exactly. I got a one-dollar bottle and took it and when it was gone I felt so much better that I bought five more bottles of Dr. Kilmer's Swamp-Root and I was a well man; my weight increased until I weigh 219 pounds. I am 65 years old and I am feeling fine and work every day. I have three men who knew me when I had to quit work in the Mill in 1906, and who will make affidavit to my present health.

If you want to use the above statements as my testimonial, you have my consent.

Yours very truly,
W. T. GRAVES,
Anderson, Indiana.

Personally appeared before me, the 4th day of February, 1914, W. T. Graves, who subscribed the above statement and made oath that the same is true in substance and in fact.

Wonderful Blood Remedy That Works in the Tissues

The Very Latest Theory About How and Why the Blood is Disordered.

S. S. S. Means Pure Blood Which Insures Long Life and Health.

The great experts in Chemistry and Physiology now declare what has long been contended by the Swift Laboratory that the germs of blood disorders find lodgment in the interstices of the tissues.

And herein is where S. S. S. goes to work rapidly, effectively and with wonderfully noticeable results.

This famous blood purifier contains medicinal components just as vital and essential to healthy blood as the nutritive elements of wheat, roast beef, and fats and the sugars that make up our daily ration.

As a matter of fact there is one ingredient in S. S. S. which serves the active purpose of stimulating each cellular part of the body to the healthy and judicious selection of its own essential nutriment. That is why it regenerates the blood supply, why it has such a tremendous influence in overcoming eczema, rash, pimples, and all skin afflictions.

C. W. Chrisman who bought a farm in the Southern end of the county, passed through Wednesday afternoon to it, from Jessamine county, where he is living until he can get matters straightened out sufficiently to move to Lincoln. He purchased them in the Knoxville and Morristown sections. Mr. Bohon has bought a large number of mules for army purposes this year. He says mules are scarcer in Kentucky than in any State he buys.

BRODHEAD.
Morris Frith came near being drowned while foraging Nigger Creek at this place Wednesday afternoon. He and his wife and eight children had been out picking strawberries and the creek was swollen to such an extent when they returned that the wife and children left the wagon and walked over the stream. The wagon was washed against the bridge and he saved himself by jumping to the bridge from the overturned vehicle. One mule was drowned and the horse came very near losing his life.

Why corn-millions have gone wild over "GETS-IT"—nothing like it ever known. Some folks to this day, putter around with bandages, sticky tape, thick plasters, corn "pulling" salves, gouge corns out with knives, snip them with scissors, make them bleed and then howl because they can't get rid of sore corns. Use "GETS-IT." There's nothing to do but apply 2 drops. The work is done. "GETS-IT" does the rest. No pain, no fussing, no changing shoes, no limping. It never fails. The Knob Extract Co., which has been in operation here for some three years, is doing a big business. The prime object of the work is getting the oil from sassafras roots. It is said that the company has made considerable money out of the enterprise.

Brothead is to have a new depot to cost \$7,000 or \$8,000. Agent J. R. Cass says the building is to be erected soon. It is needed.

Preparations are already being made for the fair, which will be held on Aug. 11, 12 and 13. J. G. Frith is president. R. H. Hammer, Vice-President. John Robbins, Secretary. A. M. Hiatt, Treasurer, and R. S. Shivel, Superintendent. The directory includes some of the very best business men of that section of the county.

John Robbins and A. M. Hiatt were in Louisville Thursday, working in the interest of the enterprise. The new grounds are far better than the old ones and much closer to town.

Quite a crowd from this city attended the meeting of the fiscal court at Mt. Vernon today. They went to enter a protest against the spending of all of the \$100,000 voted for roads at the recent election on the Dixie Highway from the Madison to the Laurel line. The citizens of this section are a little uneasy lest Brothead, which voted so strongly for bonds, may be left out, since the Dixie Highway has attracted so much attention.

W. O. Walker and Dr. W. N. Craig, of Stanford, were in the city Thursday.

Miss Etta Cable, who has entered the Interior Journal contest, is working like a Trojan to secure one of the trips offered by this paper. She will appreciate any help her friends may give her.

Foaled July 8, 1911, will make the season at our barn at Moreland at \$10 to insure a live colt. Season due when colt is foaled or mare parted with or moved from the county.

Tolbert is a black jack with white points, 15 1-2 hands high, heavy bone, good feet and perfect in every respect. It will pay you to investigate Tolbert and his colts before breeding your mares. Will endeavor to avoid all accidents but will not be responsible should any happen.

He is a superb breeder as his colts will show for themselves. Prestolight, one of his colts went a mile last year at Lexington in 2:11 1-2 and another in Ohio in 2:10. No other horse ever stood at so low a price with two colts in the ten list. Don Varrick is by Onward Silver 2:05 1-4; 1st dam by Wilkes Boy 2:24; 2nd dam by Bogg's Grey Eagle. Don Varrick has plenty of speed, having shown quarters in 34 1-2 seconds and went half mile at Danville on 1-2 mile track in 1:10. He has a splendid disposition which he imparts to his colts. REX COAL YARDS

H. L. PERKINS, Prop., Successor to E. B. Denham

KENTUCKY GENTLEMAN

No. 5167 A. S. H. R.

is a handsome chestnut with beautiful mane and tail; is 15.3 hands and will weigh about 1,150 pounds; has the very best of feet and legs; good flat bone, broad sloping shoulders; short, stout back and a horse of the most wonderful endurance. He is an impressive horse, standing still and is more so in motion; sets himself just right, never touches himself any where and has exceptional speed at the rack and trot. He was one of the most successful horses shown last year. He was shown at three fairs and won the combined stallion class at each place.

Kentucky Gentleman has the qualities that are necessary to the production of a perfect horse—color, size, style, speed, action, and endurance, and ideal breeding. He is sired by Chester Peavine 3184, by Rex Peavine 1796, by Rex McDonald 833. Dam, Flora Carter 8419, by Red Squirrel 53, by Black Squirrel 58, by Black Eagle 74, by King William 67.

In offering the services of this grand young horse to the public, I feel that I am giving them their money's worth. Give him the same class of mares and I do not believe there is a horse in the State that will beat him producing high class colts, (no matter how high the service fee.) Breeding to Kentucky Gentleman is no longer an experiment. Bring him a good mare and he will get you an extra good colt. Do not take your mares thirty or forty miles to breed when you have just as good a horse right at home and for less than half the money.

Kentucky Gentleman will make the season at my home, one mile from Stanford, on the Danville pike at \$20.00 to insure a living colt. Money due when colt is foaled. Care taken to prevent accidents, but not responsible should any occur.

Voltaire 55140

There is no doubt about Voltaire being the best breeding as well as the best bred big horse in the county and possibly in the State. Each time he has been shown he has easily won first premium and his colts have won first every year they have been shown. There has been more demand for big horses within the last year than was ever known before. Quite a good many farmers have almost stopped raising horses and that is sure to make a demand for them. Nearly every farm paper you see advises the farmer to raise bigger and better horses. I think right now is the farmer's opportunity. Bring your good mares to Voltaire and you are sure to get a good colt. He will make the season at my farm, one mile from Stanford on the Danville pike at \$15.00 to insure a living colt. Money due when colt is foaled.

I will also stand a good young Jack. He is a heavy big boned fellow, and I think will make a good breeder. Will stand at \$10.00 to insure.
